DETAILED ACTION

Examiner's Comments

1. This action is in response to applicant's amendment received 27 September 2004. Applicant has amended claim 1 and cancelled claims 5-6 and 13-15. The pending claims are now 1-4, 7-12, and 16-19.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to anticipate or show in combination an apparatus for sealing a flattened tube of heat-sealable filter paper where the tube is made from a web of filter paper that is sealable by thermal reactivation of a layer of glue, the apparatus comprising an operator block inside the tube with at least a row of emitters designed to give off a heated gaseous fluid, the emitters aligned with the longitudinal edges of the web of filter paper giving off the gaseous fluid onto the faces of the inside edges of the tube directly on the glue on the web of filter paper as it is being folded over around the operator block; the operator block having the shape of an elongated, tapered solid and positioned so that its wide end faces a direction opposite the direction in which the web of filter paper is being fed, the operator block having oblique side walls which are in contact with the longitudinal edges of the tube and which bear the emitters in such a way that the emitters face the inside of the tube for reactivating the glue on the faces, wherein the side walls prevent gaseous fluid issuing from the emitters from passing between the edges and the oblique side walls.

Art Unit: 3721

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
